Gain visibility for your products and services for a large, international audience (5-600 people) coming from all over Europe and beyond!

### About the Integral European Conference in 2014

The first event, IEC 2014 in Budapest, Hungary, was a watershed event for the integral community. 500 people from 27 countries came together to share and celebrate “The Emergence of Integral Consciousness in Europe”. We pioneered a new conference format that included academic, practical and workshop offerings, bustling social events as well as a touristic tour through the Hungarian countryside. The event was a big success and enthusiastically received throughout the community:

„The IEC in Budapest was for sure the beginning of a new era.“

- Dr. Thomas Steininger, Evolve Magazine

"The 2014 IEC in Budapest was the most extraordinary Integral event that I ever experienced, and I have been to quite a few."

- John Dupuy, Integral Recovery

„A wonderful event with wonderful people, wonderfully organized.“

- Ervin László, Founder Club of Budapest

„This was the best conference I have ever been to.“

-Dr. Susanne Cook-Greuter, principal Cook-Greuter Associates
